## **AQUANIL (Waterless Car Wash) and AQUANIL-X (Waterless Car Wash & Wax)**

### **Easy to use directions:**

1. Start with 2 clean microfiber towels. Fold each towel in half twice before use. This will give you 8 clean pads to carry out your cleaning operation.
2. Spray the first microfiber towel with **Aquanil (X)** to pre-wet, and then lightly spray the surface of the vehicle to be cleaned. \*\*Clean only one section of the car at a time.
3. Wipe over the section of the vehicle's surface with the microfiber towel pre-sprayed with **Aquanil (X)**. Any circular or linear motion is acceptable.

Once you've applied the **Aquanil (X)** to that section, simply grab a clean microfiber towel and gently buff off leaving a brilliant, long lasting, glossy shine.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

## WASH & WAX

**CroftgateUSA's Wash & Wax** cleans and builds a deep lustrous shine that can only be achieved by using the finest waxes and polymers in the world. This unique, protective coating makes water sheet off and prevents dirt adhesion to the paint surface.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Surface Condition - Guide for dosage:

- Light to moderate road grime, dust, dirt, bugs, tar **Concentration:** Use 1 to 1-1/2 capful per gallon of water.
- Heavy coating of road grime, dirt, bugs, tar **Concentration:** Use TWO capfuls per gallon to 2 gallons of water.
- *If you are using the pump, 3-4 pumps = 1 capful*

### Easy to use directions:

1. Choose dosage based on the surface conditions listed above, and add to bucket of water and stir.
2. Soak a microfiber towel in this mixture and wring out until there is no excess water dripping.
3. Use the wet towel to wash the vehicle, one panel at a time, re-wetting each time.
4. Use a dry microfiber towel to dry off each panel as you go.

For dark color, metallic or white cars, we recommend misting panel with Project-X, and wiping off with wet wash n wax microfiber towel.

## PROJECT-X

**CroftgateUSA's Project-X** is a depth and shine enhancer for dark-color, metallic and white cars. We recommend using it on clean surfaces only, and in conjunction with Wash & Wax. Mist **Project-X** onto the surface, and then go over misted area with a wet microfiber towel treated with Wash & Wax, and buff panel dry.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. **Project X** should be applied to a clean surface only. Start by cleaning your car thoroughly using one of these products: **Multi-Clean, Aquanil, Aquanil-X, or Wash & Wax.**
2. Treat the painted surface by rubbing gently to develop a deep, bright that lasts
3. Fold a clean, dry microfiber towel 2 times.
4. Mist the towel with 2-3 sprays of **Project X** and the area you are working on. Do Not Over Apply!
5. Continue applying, one area at a time, until vehicle is done.

## MULTI-CLEAN

**CroftgateUSA's Multi-Clean** has the ability to remove heavier than normal dirt and film that conventional cleaners can't touch (road debris, bugs, tar, bird droppings, and much more.) This product is also gentle enough to use on the inside of your vehicle on fabrics and carpeting to remove stains, grease, and dirt. Also, can be used in your home on all surfaces except glass.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. **Multi-Clean** should be used out of direct sunlight on cool bodywork.
2. Fold each microfiber towel in half twice before use. This will give you 8 clean pads to carry out your cleaning operation.
3. Spray the first microfiber towel with **Multi-Clean** to pre-wet, then lightly spray the surface of the vehicle to be cleaned.
4. Wipe down the surface area to lift away dirt and grime. For stubborn stains, allow **Multi-Clean** to sit for 2-3 minutes before wiping away.

**For carpets and upholstery:** Spray directly on soiled area, and then rub gently to remove stains and dirt.

## TIRE SHINE PLUS (Cleans both your Wheels, Tires and a whole bunch more)

**CROFTGATEUSA's Tire Shine** is unlike any product on the market. **Tire Shine** has a sophisticated blend of emollients and gloss agents that leave your tires with a long lasting, satin smooth finish. **Tire Shine** does not contain any petroleum solvents that can adversely affect the structure of the tire and leave a brown rather than dense black finish. **Tire Shine** is safe to use on chrome, black plastic, dashboards, door sills and panels, convertible tops, leather and so much more.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. **For a Wet Shine Look:** Apply even coating of **Tire Shine** to tire surface. Do not wipe in. **Tire Shine** will dry clear. Spray each tire evenly and walk away!
2. **For a Matte Look:** Apply even coating of **Tire Shine** to tire surface, then using a clean microfiber towel, wipe around entire tire one time.
3. Spray on rims and wipe clean to remove brake dust and other debris.

## QUICK-N-SLICK

**CroftgateUSA's Quick-N-Slick** stays on, shining and protecting your car, allowing unprecedented long term shine, durability & sealant.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. **Quick-N-Slick** should be applied to a clean surface only. Start by cleaning your car thoroughly using one of these products: **Multi-Clean, Aquanil, Aquanil-X, or Wash & Wax.**
2. Treat the painted surface by rubbing gently to develop a deep, bright shine and a slickness that lasts for months.
3. Fold a clean, dry microfiber towel 2 times.
4. Mist the towel with 2 sprays of **Quick-N-Slick**. Do Not Over Apply!
5. Continue applying, one area at a time, until vehicle is done.

## THE LAST DETAIL

Protect your vehicles reflection with **CroftgateUSA's The Last Detail**. Use **The Last Detail** on clean surfaces to instantly touch up your vehicles shine (paint, windows, mirrors, chrome, plastic and more).

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

- 1) To keep your car "car show ready", we recommend using 1-2 clean dry microfiber towels to apply.
- 2) Spray 2-3 mists on surface area and wipe in with a clean microfiber towel, flip towel over and wipe off.

Remember, **The Last Detail** can be used on multiple surfaces. For GLASS, spray 3-4 mists on glass and using a clean microfiber towel, wipe on and then flip the towel and wipe off.

## REJUVENATOR

Croftgate's Rejuvenator brings back faded plastics, trim and protects rubber hoses and seals.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. Use a small amount of product at a time to rub into the surface. For small areas, a finger dip is perfect to rub in. For larger areas, pour about a quarter size onto the microfiber and rub in. For uneven surfaces, a sponge brush can be used to get into the crevices.
2. Wipe any excess off with a dry microfiber.

### Areas of use:

- Exterior trim, plastic, rubber bumper
- Rubber door and trunk seals
- Dash
- Door panels
- Engine hoses and rubber pieces.

## Endure XXL

**CroftgateUSA's Endure XXL** stays on, shining and protecting your car, with ceramic like properties and durability as a semi-permanent sealant for up to 6 months.

Note: We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products, to avoid the chances of causing micro-scratches on the top coat or interior surfaces.

### Easy to use directions:

1. **Endure XXL** should be applied to a clean surface only. Start by cleaning your car thoroughly using one of these products: **Aquanil**, **Aquanil-X**, or **Wash & Wax**.
2. Treat the painted surface by rubbing gently to develop a deep, bright shine and a slickness that lasts for months.
3. Fold a clean, dry microfiber towel 2 times.
4. Mist the towel with 2-4 sprays of **Endure XXL**. Do Not Over Apply!
5. Rub into an area and buff to a higher shine. Continue until vehicle is complete
6. Can be applied to any non-porous surface.
7. Boost with Quick n Slick every 30 days to maintain ceramic like properties.

# The One

## The One Instructions

**Contents:** 1 x 32oz The One

**Exterior** (Paint, Chrome, Plastic, Rubber and Glass Surfaces):

**Step 1:** As a one-time pre-moist, spray a few mists onto your clean microfiber towel and then spray 4-5 times on the area to be cleaned. Do a section at a time (Example; top half of a door).

**Step 2:** Wipe the surface until all product is wiped and intended surface is covered.

**Step 3:** Use a second clean twice-folded microfiber towel and wipe off until a brilliant shine is seen and some slip is felt. This only takes a few seconds. Repeat above until exterior is completely cleaned, polished and protected.

**Wheels & Tires:** Use same process as exterior.

**Interior:** (for all solid surfaces)

Spray a few mists of The One onto a twice-folded, clean microfiber towel and wipe onto any leather, dash, door trim and door panel. Re-spray microfiber towel when needed. There should be no need to wipe off, as there will be no excess.

## Tips and Tricks of Croftgate USA

1. The instructions are in order of use (well as close as possible)
  - Clean, Enhance, Protect, Touch-up
2. You can use Croftgate Products in full sun.
3. A little goes a long way, if you use too much product, creates more work and may cause streaking.
4. Proper microfiber care will prevent micro marring and product streaking.
5. Last Detail is the perfect Glass Cleaner!
6. Tire Shine Plus, perfect for Convertible tops, hoses, dashes, door panels, chrome. Also refreshes your hood mat bring it back to black in color.
7. Rejuvenator will also enhance your dash and door panels besides bring back the trim.
8. Use a wet but wrung out Wash n Wax microfiber to wipe down the interior to remove dust and whatever on all surfaces.
9. Use a wet but wrung out Wash n Wax microfiber, with Multiclean and Heavy Duty Cleaner for a more powerful and easy way to remove bugs, road grime, tar, etc.
10. You can combine Wash n Wax and Project X to save time and get a better result (2 steps in 1)
  - Spray section with Project X, wipe in with wet Wash n Wax microfiber, buff dry.
  - Another way is you can pour about an ounce of Project X in your Wash n Wax bucket and wash your vehicle.
11. You can use Croftgate USA products in your home as well. Wash n Wax your floors, Project X or Quick n Slick your Stainless Steel, Multiclean hard surfaces, Last Detail your mirrors or shower doors, etc.
12. Check out the website [www.themadturtle.com](http://www.themadturtle.com) for complete product line and extras to make your detailing experience quick n easy!

## MICROFIBER TOWELS

We highly recommend using microfiber towels for the application and removal of all **CroftgateUSA** products. Microfiber towels will make it easy to buff your paint to a stunning shine and/or remove stubborn dirt and debris from any surface. 300 GSM, 70/30 minimum.

**IMPORTANT NOTE:** Every microfiber towel you receive from me is washed and preconditioned, ready for use. When you wash your towels at home, we highly recommend you follow these instructions:

- 1) Wash your towels alone so you don't get any car residue (dirt/grime) on your clothes.
- 2) Only use a gentle detergent (Woolite, All Free & Clear, etc) and DON'T use fabric softener or dryer sheets.
- 3) Wash your towels on gentle cycle using warm to hot water.
- 4) **HANG TO DRY.** Do not put your towels in the dryer, the heat will cause static and break the tips of the cloth which will scratch the surface. If you must put in dryer, use a fluff or non-heat cycle and NO dryer sheets
