Newsworthy Stuff!

NOVEMBER/DECEMBER 2019

The Mad Turtle is excited about the new Detail section of the website where you can check out our work. We are always learning and testing new compounds and polishes to help in the paint correction process. We've also added the Oberk line of compounds, polishes and pads, along with the "Tornado" for when you need a little extra muscle.

Winter Vehicle Maintenance

Always keep your car well maintained. Check your wiper blades, tires, tire pressure and fluids. Clean your vehicle completely clear of snow and ice. Not only it is safer for you but for the drivers around you. Keep a winter survival kit in your vehicle, especially if you travel long distances. A clean, well maintained vehicle will get better gas mileage and maintain its value longer.

Winter Tips

Use hot water and rubber gloves with less than a cap full of Wash n Wax to remove the winter nasties. Do not store your Croftgate products in your cars or unheated garages. Keep them in an area that will not freeze. If they do freeze, let them thaw naturally and shake well.

Etcetera

If you are considering the sale of your vehicle, let the Mad Turtle give it the best possible finish so you can maximize your profit at the time of the sale.

Would you like to learn more about Croftgate and how to use the products? Schedule a demo or educational detail class for yourself and/or club. We can be reached via social media, email or phone.

The Mad Turtle is more than just car care and car care products. In the off season, Turtle does custom crochet work.

Need your vehicle detailed and/or ceramic coated in a climate controlled garage? The Mad Turtle is taking appointments, so book yours today! Evenings and non-show/event and weekends available.
